**Abstract Title:** \_\_\_\_\_

**Control #:** \_\_\_\_\_

**Author(s):** \_\_\_\_\_

The Air & Waste Management Association (A&WMA) requests permission to publish and redistribute your abstract (please specify above) in all media of expression now known or later developed, including in paper and/or electronic form (on the A&WMA Web site and/or CD-ROM), as well as sales of paper and/or electronic reprints.

By signing this release, the Author confirms that the abstract is original on the Author's part except for such excerpts from copyrighted works as may be included with the written permission of the copyright owners. The Author further warrants that the abstract contains no libelous, obscene, or unlawful statements, and does not infringe upon or violate any copyright, trademark, or other right or the privacy of others. The Author also warrants that in the case of sole authorship, the Author is the sole owner of the abstract and all copyrights therein, and has full power and authority to register all copyrights therein and to make this Agreement, and that in the case of multiple authorship, these powers of ownership are shared with all other contributing authors. The Author acknowledges that the Air & Waste Management Association is relying on this release in publishing this abstract, and agrees to indemnify the Air & Waste Management Association against liability and expense, including reasonable counsel fees, arising from or out of any breach of these warranties.

Considering that the Author(s) retain the copyright to this abstract, please indicate your agreement to grant the permissions requested for the uses specified above by signing below.

**U.S. Government Employees, Grant or Contract Authors:** By signing this release, you are certifying that this abstract was prepared as part of your official duties, and as such, is a "work of the United States Government" and is in the public domain and is freely reproducible.

\*\*Please note that as primary/corresponding author, you are representing all co-authors of this abstract. Your signature on this form indicates that you have received permission from all co-authors to allow A&WMA to publish and redistribute this abstract as described above. No abstract will be published by A&WMA unless a signed permission form is received from the primary /corresponding author. In the case of a "work made for hire" (a work prepared by an employee within the scope of his or her employment or commissioned as a work for hire under written agreement), an authorized representative of the employer should sign.
